Application/Control Number: 10/663,111

Art Unit: 3636

## REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the claims are allowable over the prior art of record because the prior art fails to show or suggest, either singly or in combination thereof, a safety seat secured to a vehicle between a floor and ceiling area thereof, by means of securement straps provided above and below the seat The safety seat further comprises a safety belt harness for securing an occupant that is sitting on said safety seat, the belt harness in turn comprising two lap belts that are each secured laterally of the seat portion and can be connected to one another by a belt buckle comprising a buckle body and an insertion tongue. Two shoulder belts extend from the lap belts and are adapted to extend over shoulders of an occupant. An activating means formed as an extension of said shoulder belts is guided below the seat portion to an entry region thereof. Respective tensioning straps are yieldingly disposed between the shoulder belts and front ones of the securement straps that extend on either side of an entry region of the safety seat in such a way that if the safety belt harness is not strapped on, said shoulders are held under prestress in an orientation that is parallel to the front securement straps.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Application/Control Number: 10/663,111
